

# In Awesome Wonder

## Finding Our Place in God's Creation

Have you ever wondered why a sunset is so beautiful to us? Or why a blood moon eclipse can stop us in our tracks? There might be something more to creation that we often miss. News about environmental disasters (climate change, droughts, extinctions, and water poverty, etc) creates anxiety, fear, and pessimism about the future. But Christians approach those issues from a stance of hope. Come and hear about that hope! We will explore how in Christ, creation and redemption are cut from the same cloth. When taken together, these two works of God encourage us to embrace the wonder of our lives as creatures of God at home in His creation.

**Dr. Charles Arand**

Dean, Theological Research and Publications

801 SEMINARY PLACE  
ST. LOUIS, MO 63105  
WWW.CSL.EDU
