In partnership with NC Start West

presents

“Treatment Options for Individuals with Autism Spectrum Disorder and Intellectual /Developmental Disabilities”

About the Trainer

Dr. Rollo McCuller is a Licensed Psychologist, Health Services Provider specializing in clinical services for individuals with intellectual and related developmental disabilities. He currently serves as the Clinical Director for NC START West. Dr. McCuller began working with people with intellectual disabilities in 1971 as a volunteer while he worked on his undergraduate degree. He feels proud and privileged to say he has worked in the field for 42 years.

Topics

- Best Practices for different therapy options
- Broad interventions
- Tools that will help you in your work with individuals with Autism and Intellectual/Developmental Disabilities
- Note: Participants, please bring some examples of specific challenges you face to discuss at this training session.
