

BOOK, PAPER, LEATHER AND FIBER ARTS

The bookbinding studio is fully equipped with the tools, machinery, and supplies that have been used by handbookbinders for centuries. We teach basic to advanced techniques and structures, from simple paper covered blank journals to fine bindings in leather and book restoration. Printing classes have a 19th century iron hand press and fonts of moveable type available for their use. Fiber arts offerings include felting, surface design, and dyeing techniques for artists of all levels. We now offer leather working classes and workshops. Small class sizes ensure individual instruction and attention.

Our spacious clay studio includes wheels, a glaze room, and bisque kiln room. The clay department is a community-based environment and students are encouraged to get involved in every aspect of working in the studio. Master Workshops are taught by visiting professionals and present unique opportunities to learn from top artists in the field.
