

Dear Ms. Myers,

Last April, our school held our first-ever Career Fair designed solely for public health students, and we were honored to count San Bernardino County Department of Public Health as one of our exhibitors. The event was a great success, and the presence of your organization was a big part of that; our students were excited to meet and talk with professionals who understand and value public health graduates, particularly those from Loma Linda University.

We are now in the midst of planning next year's Career Fair, scheduled for Friday, February 20, 2015 at the Drayson Center, and are hoping your organization will again be present to meet our public health students, who are pursuing MPH degrees in a number of concentrations, including epidemiology, health education, nutrition, environmental health, health policy, and global health. They seek employment and internship opportunities at health care facilities, government agencies, academic institutions, non-profits, and international aid organizations, and would be honored to meet with representatives from San Bernardino County Department of Public Health at our Career Fair from 10 am to 2 pm. on Friday, February 20, 2015.

Look for more information about the event shortly, but we wanted first to let you know about our plans and hope that you will include us in yours.

Sincerely,

Molly Dougherty  
LLU-SPH Career Services
