students and teachers served through the Inland Coalition.

Get Psyched!

Future Mental Health Professionals Summer Camp

20%

The increase in student's interest to become a mental health professional serving in a medically underserved area.

Inland Coalition addresses the need for health professionals in the Inland Empire by achieving a health workforce that is diverse and community-responsive. We work collectively to identify and facilitate solutions to the educational, social and environmental barriers to a seamless health pipeline and support coalition members through information dissemination, training/technical assistance, research and evaluation, policy development, advocacy, and coalition-building. Our mantra: Plan Now, Live Well, Serve Here. To learn more visit InlandCoalition.org.

650

new resources, programs, student learning opportunities, and events added to the Inland Coalition Weekly Update.

200 PLUS

readers each and every week
