

October 2015

Coralyn Musser has been a member and mentor at the YMCA for a few years. She is an important part of making sure that all youth in the community feel valued and cared for. She has given her time, energy and talents to help the youth she is with to take positive steps in her life. The youth she is matched with has graduated from high school and is moving on to college this fall.

This is what Coralyn's mentee has to say about her:

In eighth grade I started going to Bethel youth group, where I got to meet Coralyn Olson Musser. I would of never expected for her to make an impact on me like she has. Coralyn is probably one of the best people God has put in my life. She is not only a great person with a great personality but she is truly a great role model and friend to have. Tonight I had dinner with her before I leave next week and I couldn't help but stop and think how blessed I am to have not only a friend like her but a role model like her. Thank you for always being there for me Coralyn and living in such a way that makes me strive to someday hopefully be like you.

Coralyn Musser
