Fastener Training Week

Cleveland, OH - May 23-27, 2016

The Fastener Training Institute® and the Industrial Fasteners Institute (IFI) continue their partnership to present Fastener Training Week – Cleveland. This week-long training program for fastener distributors, manufacturers, and users covers the manufacturing processes, consensus standards, quality control and much more.

Fastener Training Week will feature learning labs taught by leading industry experts, Carmen Vertullo CFS (CarVer Consulting), Salim Brahimi (IBECA Technologies) and Laurence Claus (NNi Training and Consulting), interactive exercises, quizzes to reinforce learning, and plant tours of manufacturing, secondary processes and testing facilities.

CURRICULUM
