

**Building Better Models with NeuroShell Trader  
Webinar Agenda  
November 17, 2015 at 2 p.m.**

The webinar will examine the following topics:

- Finding the right securities to model
- When to retrain models
- How to find good inputs
- Preventing overfitting
- Optimizing models effectively
- How does pattern recognition work in trading
- Creating ensemble systems
- How to judge success
- How to use chart page indicators
- Building models that automatically adapt to markets

After the presentation, there will be an informal question and answer session.

The signup fee is \$179 per person.
