

### **Congratulations, China Genwright, Recognized by Max Finberg, the Director of AmeriCorps VISTA**

On the afternoon of Friday, June 24, 2016, our very own **China Genwright** was recognized for her outstanding work as an AmeriCorps VISTA in Delaware and the District of Columbia over the past two years during the **Third Annual FedServe Inter-Agency STEM Volunteer Fair** at the United States Department of Agriculture's Whitten Building. The fair was convened by the Corporation for National and Community Service in partnership with other federal agencies to connect the federal workforce to STEM service opportunities in the greater Washington, DC region.

**China Genwright**, *FIRST* AmeriCorps VISTA – Washington, DC is pictured with **Marcus A. Brownrigg**, Director, Program Impact and Operations, AmeriCorps VISTA and **Max Finberg**, Director, AmeriCorps VISTA.

At 12:30pm **Dr. Joyce Hunter**, USDA's Chief Information Officer, briefly welcomed the audience to the USDA and introduced a video message from **Dr. Catherine Woteki**, USDA's Chief Scientist. In his remarks, **Max Finberg**, the Director of AmeriCorps VISTA at the Corporation for National and Community Service, recognized *FIRST* as a critical partner and China's work as a VISTA in addressing participation gaps of women and minorities in STEM fields.
