PRACTICE CHANGE LEADERS FOR AGING AND HEALTH

The Practice Change Leaders for Aging and Health Program is a nationally recognized program to develop, support and expand the influence of organizational leaders who are committed to achieving transformative improvements in care for older adults:

- The program is a fifteen-month opportunity to gain enhanced leadership skills and content expertise to positively influence care for older adults specifically in the areas of transitional care, health services for dually eligible beneficiaries, enhanced primary care (including person-centered medical homes), and accountable care organizations.

- Practice Change Leaders receive $45,000 during the fifteen month award period to support their projects and leadership development, and additional support for travel to the four highly interactive national program meetings.

Eligible Applicants: Applicants must hold a leadership role in a health care delivery organization, health-related institution, or community-based organization with direct responsibility for care that impacts older adults. Two current Change Leaders are social workers. You can read about their projects on the website: Amy Turk and Cindy Tack. Another PCL is with an Area Agency on Aging: Fran Anderson.
