Zoo Tour and Workshop

April 13 2:30-4:30pm

THIS LIMITED HANDS-ON OPPORTUNITY WILL BE AVAILABLE TO THE FIRST 120 REGISTERED AND PAID PARTICIPANTS WHO CHOOSE THIS ADDITIONAL OPTION.

Each person will take part in all three sessions, led by Zoo Educators:

- o *Conservation Education Workshop:* Learn about the Zoo's mission of conservation in communities around the world and how to incorporate real world conservation into your afterschool programs.
- o *Behind the Scenes Tour:* Learn more about the conservation of Africa's elephants and tour behind the scenes in the Zoo's elephant barn. Discover how you can involve your afterschool programs in saving Africa's elephants.
- o *Project-Based and Service Learning:* Project-Based Learning allows students to connect their learning to real-world problem solving. Service-learning teaches empathy in young people and allows them to make a change in the world. In this session, learn how to create meaningful learning for students by using these two methods in your after-school program.
