The word or name "JAH" also exists in various cultures and languages, and often written only with the change of one letter.

JAHMENT, is a energetic mind, cosmic divine source from which emanates wisdom and knowledge or the intellectual potential of human beings.

# CONCLUSION

Unawareness of the laws of nature in the usage of plants and nutrients makes us do mistakes because both allopathic medical and the herbalist man identify each other. They both study only the physical body of living beings.

Naturopathic or Holistic Therapist studies the man and the plant in its triple aspect body, soul and spirit. Whoever wants to officiate the source of wisdom, must know how to manipulate the elemental creatures of the plant; to learn to heal because the elemental of each plant has its ritual, mantras and their hours to give the doctor who knows, ask with love and affection and humility imposed with. Man must come back with joy and love to the "temple of nature" because it will give us not only bread and shelter, but also wisdom.
