SURFACE SOLVES THE DILEMMA.

The Surface packs all the power and performance of a laptop into one mighty tablet. Go further with the portability and productivity you demand—in less than 2 pounds and .4 inches thin! Surface helps you take work wherever it takes you.

FLEXIBLE CONFIGURATIONS FOR CHANGING BUSINESSES.

Power through your day brilliantly with stunning visuals and smooth graphics thanks to the Surface's Intel® processors. Whether you're a professional or a student, you'll appreciate the all-day battery and extra GHz on demand from Intel's Turbo Boost Technology 2.0.

THREATS EVOLVE, AND SO DOES SURFACE.

Today's security challenges are more daunting than ever—lost or stolen devices, malware, identity theft, viruses, and data loss. Windows 8.1 brings you enterprise-level security features to provide safe access to your network, including:

- UEFI
- TPM
- Secure Boot and Trusted Boot
- Intel® Identity Protection Technology

PROTECT YOUR INVESTMENT.

The Surface comes with a standard one-year limited hardware warranty. Insure your device is safe from accidental damage for three years with the Extended Hardware Service plus Accidental Damage Protection.

Contact CDS Office Technologies today to discover the peace of mind you'll get when you dive deeper into the Surface!

LAPTOP FEATURES YOU NEED. TABLET FEATURES YOU LOVE.

The Surface is built to work seamlessly with the applications you use most. Office 2013 works great with touch, mouse and keyboard, or pen. And you can continue to run Windows 7 desktop applications like QuickBooks, Photoshop and SAP on Surface.

Worried it'll be difficult to adjust to Windows 8.1? The included Surface Pen makes it intuitive to write on the Surface touch screen. Touch, type, Surface Pen or mouse—the Surface lets you work your way. There's also a wide range of fun and functional third party accessories to stylize and protect your investment.

The Surface comes equipped with connectivity to help you get more done, including USB 3.0 and HD video out. The microSD™ slot allows for almost limitless storage, so you can download music, movies and more till your heart's content. The available docking station adds multiple ports and peripheral connections, so you can attach your HD monitor, wired network connection, audio system, full-size keyboard, printer and more—it's that simple. While some of our competitors are removing ports and restricting storage capacity, the Surface insures you can multi-task and grow with ease.

DISCOVER THE ENTIRE SURFACE ECOSYSTEM!
