## EDU 231 Curriculum for Young Children

3 credits

Instructor: Vera Mykyta

Book: *“Educating Young Children”*, 3<sup>rd</sup> edition, by Hohmann

This course is designed to provide the student with a developmental approach to early childhood education programming, stressing the value of active learning and open-ended experiences in all areas of the curriculum. The interrelation of each area of the curriculum in the total learning experience is stressed, with particular emphasis on art, music, movement, mathematical thinking, literacy, dramatics, woodworking and science. Prospective teachers develop techniques of planning, implementing and evaluating child-centered opportunities for daily programming and techniques for extending children’s individual learning. Lecture and workshop methods are used to equip the student with ideas to take back to the classroom.
