

ENROLL TODAY

SAVE ENERGY & MONEY TOMORROW

TRI-CITIES
BEGINS SEPTEMBER 17, 2013

Building Operator Certification helps building engineers, maintenance supervisors and others in the skilled trades advance their skills in energy efficient operation of commercial buildings.

Since 1996 BOC® has advanced the performance of commercial buildings and the careers of building operators by providing a mix of classroom and hands-on training.

Enroll now to gain essential skills and a professional credential in energy efficient building maintenance. BOC training includes documentation of building equipment, systems and controls; benchmarking the building's performance; updating occupancy profiles; reviewing HVAC systems and operation; and mapping the facility's electrical distribution system.

BOC Level I training is for those with two or more years of experience in building operation and maintenance, who wish to broaden their knowledge of the total building system. **BOC Level II** is primarily for operators who have been certified at BOC Level I and who want more advanced training.

TRI-CITIES BOC LEVEL I SCHEDULE

All classes are held from 8:00am to 4:00pm.

BOC 1001-A / Energy Efficient Operation of Building HVAC Systems	9/17/13
BOC 1001-B / Energy Efficient Operation of Building HVAC Systems	9/18/13
BOC 1002 / Measuring and Benchmarking Energy Performance	10/9/13
BOC 1003 / Efficient Lighting Fundamentals	11/6/13
BOC 1004 / HVAC Controls Fundamentals	12/3/13
BOC 1005 / Indoor Environmental Quality	1/8/14
BOC 1006 / Common Opportunities for Low-Cost Operational Improvements	2/5/14
BOC 1009 / Building Scoping for Operational Improvement	3/5/14

REGISTRATION INFORMATION: The registration fee includes all classroom training hours, class handbooks, a project workbook, BOC newsletter and credential recognition materials. To register, complete the registration form on the reverse side and submit to the NEEC office.
