

Construction Career Days

Why you should participate?

It is projected that by 2019 there will be nearly 25,000 new positions in construction in NH. Where are these people coming from...not from neighboring states they will have nearly 175,000 positions of their own to fill. (source: <http://byf.org/craft-labor-map>)

It is up to the industry to promote itself! We need to answer these questions:

- Why should I consider construction as a career?
- Why did you make it your career?
- What give you the most pride and satisfaction about a career in construction?

These are some of the questions we need to provide answers to for the next generation of workers – your future. What follows is an opportunity, make that a responsibility, to reach out and answer those questions face to face with those future employees.

Each year your ABC chapter supports and participates in the NH Construction Career Days. This event is focused on promotion of construction careers through hands on activities in the trades. From the inaugural event in 2009 Construction Career Days has grown from 400 participants to nearly 1500 registered students all itching to learn more and try different aspects of the industry. These juniors and seniors come from over 40 schools all over the State to spend half a day welding, building, wiring, spackling, digging, soldering, etc. at over 50 vendors' stations. There have been hires made from relationships started at this event! This is your opportunity to do your part and help to raise the profile of construction in their future.

We need your support so the lines are short and energy high at this event. Here are the details:

New Hampshire Construction Career Days
Hillsborough County Youth Center Foundation
New Boston, NH
September 22nd & 23rd, 2016
8:30 am - 12:30 pm
<http://nhccd.weebly.com/>
