The Nevada Health Care Association Perry Foundation welcomes Roger Faselt to its board of directors

NEVADA – Roger Faselt has been appointed to the Nevada Health Care Association (NVHCA) Perry Foundation as the newest member of its board of directors. Faselt is currently the founder and president of Quality Medical Imaging.

“Faselt is a highly skilled leader within the medical community in the Western region,” said Robert Kidd, president of the NVHCA Perry Foundation. “He is a trailblazer in the medical-imaging field and will be an incredible asset to the Perry Foundation’s board of directors.”

Faselt has been working in the medical industry for more than 27 years. His companies are a select few businesses offering portable X-rays, diagnostic ultrasounds, EKGs, bedside PICC catheter placement and more.

In addition to operating Quality Medical Imaging, Faselt is actively involved in a number of professional organizations. He serves on University of Nevada, Las Vegas’ Division of Health Sciences Advisory Board and has helped to develop a sonography program at the Community College of Southern Nevada. The Nevada Business Journal named Faselt one of Nevada’s Healthcare Heroes in 2006.

About the Perry Foundation

NVHCA Perry Foundation is a 501 (c)(3) non-provider based charitable foundation that, through community awareness and donor support, is committed to providing education to Nevada’s post-acute provider and regulatory community. Through this education, the Foundation improves the quality of care provided to the residents of our state’s Nursing Homes and Assisted Living Communities.
