## **Dr. Brendan Johnson Appointed to State Board of Dental Examiners**

*Nevada Oral & Facial Surgery Surgeon Receives Prestigious Honor*

**LAS VEGAS -- March 29, 2016 --** [Nevada Oral & Facial Surgery](#) today announced Dr. Brendan Johnson has been appointed to the Nevada State Board of Dental Examiners.

The Nevada State Board of Dental Examiners is comprised of seven dentists. Based on a practitioner's ethics and ability to rationally oversee the practice of dentistry, Johnson was nominated by Governor Brian Sandoval, and is the oral and maxillofacial surgeon on the board.

In his new role, Johnson will help protect the dental health interests of Nevadans by working to develop and maintain programs which ensure only qualified professionals are licensed to practice dentistry and dental hygiene. He will also help ensure that those who violate the laws regulating the dental and dental hygiene professions are sanctioned appropriately.

"It is an honor to be selected to this position," he said. "My job is to serve the people of Nevada, and I look forward to ensuring their oral health issues rest in skilled hands."

Johnson earned his Doctorate of Dental Surgery at the University of Pacific. He completed his residency training at the University of California Los Angeles and the Sepulveda Veterans Medical Center, St John's Mercy Medical Center, University of Oklahoma and Oklahoma Children's Hospital.

This is not the first major accolade for the co-founder of Nevada Oral and Facial Surgery. Johnson has previously been appointed to the Anesthesia Evaluation Committee, of which he is now the chairman, and the Southern Nevada Peer Review Board. He is the Past President of the Southern Nevada Dental Society, a member of the American Dental Association Political Action Committee and the Legislative Committee of the Nevada Dental Association. Dr. Johnson has been consistently voted "Top Oral and Maxillofacial Surgeon" since 2001.

### **About Nevada Oral & Facial Surgery:**

The largest oral and maxillofacial surgery practice in Nevada, [Nevada Oral & Facial Surgery](#), offers board certified, skilled surgeons with decades of experience, along with state-of-the-art technologies. Using the most advanced technologies in Nevada, including cat scan 3-D imaging and digital X-rays, the practice offers numerous procedures including dental implants, bone grafting, facial trauma and reconstruction, wisdom teeth extractions, extractions of single or multiple teeth, general anesthesia and more. The practice is entirely CAT-scan generated and provide precise guided surgeries. Nevada Oral & Facial Surgery has two locations in Las Vegas:

6950 Smoke Ranch Road, Suite 200, Las Vegas, 89128, and 1525 W. Warm Springs Road, Suite 125, Henderson, 89014. Both are certified by The Joint Commission, which is the same commission responsible for accrediting hospitals.
