

## Public Art Working Group Application

**The Town of Superior is seeking applicants interested in public art to examine options for additional art opportunities within the Town. The public art working group will assist in the development of public art projects and programs for the Town, and coordinate the selection of future installations. Experience and knowledge of public art is beneficial, but not required, to participate on the working group. Applicants must have a strong desire to participate actively throughout the formation of the working group objectives and selection of public art projects.**

Applicants will be expected to be receptive to diverse means of creative expression; be an impartial juror; be able to work well within a team setting and possess a strong desire to work with fellow citizens for the betterment of our community through public art.

An initial project is planned at the McCaslin BRT Station that will require this working group's participation. This group will participate with additional communities along the US 36 corridor to select artwork for RTD's Art-n-Transit program as part of US 36 Express Lanes Project, currently under construction. This project will require a time commitment of approximately 30 hours spread out over several months, and to be available for meetings as determined by the RTD Artwork Selection Panel.

**To apply for consideration, please complete this application and return to Superior Town Hall or email to [martint@superiorcolorado.gov](mailto:martint@superiorcolorado.gov)**
