Upcoming Webinar: *Understanding Meaningful Use*

Daniel Chipping,
MBA, MHA

Daniel Chipping is a project manager for HealthInsight Utah. He supervises a team of employees, manages the Meaningful Use project, and works to meet the needs and priorities of clinics and hospitals in northern Utah. He holds a Master of Business Administration and a Master of Healthcare Administration from the University of Utah, David Eccles School of Business. Before joining HealthInsight, he worked for the Veterans Affairs Hospital on a home health project and was a practice administrator for a two-site family practice in West Jordan.

Renee Sussman,
RN, MA, MSN, HIT Pro-CP,
HIT Pro-IM

Renee Sussman has more than 35 years of experience in health care, in both urban and rural hospitals as well as outpatient clinics, performing quality improvement, supervision, management, delivery of direct patient care, selection and implementation of EHR systems, and building cohesive teams. She has been director, health information technology, at HealthInsight New Mexico since July 2010. In that position she oversaw the organization's work as part of the New Mexico Health Information Technology Regional Extension Center.

This material was prepared by HealthInsight, the Medicare Quality Innovation Network Quality Improvement Organization for Nevada, New Mexico, Oregon and Utah, under contract with the Centers for Medicare & Medicaid Services (CMS), an agency of the U.S. Department of Health and Human Services. The contents presented do not necessarily reflect CMS policy. 11SOW-B4-15-08
