Swimme and Tucker weave a tapestry that draws together scientific discoveries in astronomy, geology, biology, ecology, and biodiversity with humanist insights on the nature of the universe to reveal the profound role we play in this intricate web of life.

From the Big Bang to the epic impact humans have on the planet today, this film is designed to inspire a new and closer relationship with Earth in a period of growing environmental and social crisis.

Created by a renowned team of scientists, scholars, and award-winning filmmakers.
