

Plan to attend the NACD Chicago January 14th meeting:

Audit Committee Agendas 2016: Emerging Issues and Best Practices

Audit Committees continue to face many new and challenging issues and risks as we work through an already full agenda. Please join us as we discuss how Audit Committees will prioritize their agendas for 2016 including evaluation and management of cyber security risks, implementation of the new Revenue Recognition Accounting Standard, the pros and cons of outsourcing or co-sourcing internal audit functions, and methods of assessing the effectiveness of Audit Committees. Our extended program will allow ample time for Q&A's. We will then adjourn for continued networking and informal discussion on hot topics for the Audit Committee.
