Journey with us as we incorporate the great outdoors into visual art creations!

We will discover the form of a bird. Looking at the Amate Mexican art form of bark painting, we will create a floral and animal multi-media artwork.

Next, we will develop a batik style wax art, and infuse nature into drawings inspired by Georgia O'Keeffe. Learn how to draw and paint a detailed bird in an Audubon-inspired, watercolor painting. We will also create a beautiful sculpture inspired by Klimt, explore oil pastels and charcoal, and more this session!

Join us this spring as the earth inspires our nature filled creations! And, as always, Dress for Mess!
