KAREN DAY, MGH&FC's JULY EMPLOYEE OF THE MONTH

SHELTON, Wash. – Karen Day, pharmacy technician, was recently selected by her peers at Mason General Hospital & Family of Clinics to be “Employee of the Month” for July. This is the second time Karen has received this prestigious award; the last time was in 1998.

Karen has worked in MGH&FC’s Pharmacy department since 1996. “I enjoy how engaging everyone is. We all work so well together – putting the patient first,” said Karen after receiving her award. She admits that there have been a lot of changes in her department over the years, many due to the advancing technologies in patient care. “Everything is so computerized,” she said. Because of MGH&FC’s forward thinking and implementation of new technology, it has earned a national recognition as a “Most Wired Hospital” for the past eight years.

Karen was nominated by four fellow employees who jointly commented, “Karen comes to work with a positive attitude every day. She will try her best to answer any questions, and she always puts the patients first. She juggles many responsibilities and is a great leader who takes the initiative to help her co-workers succeed. Karen is an inspiring and kind-hearted human being.”

When not working, Karen enjoys camping, reading, being with friends, and spending time with her black Labrador Retriever. She also makes it a point to take a trip somewhere different every year.

MGH&FC is approved by the Joint Commission, and is a licensed and accredited acute care hospital with a level four emergency trauma designation. There are more than 100 physicians on staff in 19 specialties. For more information go to www.MasonGeneral.com.
