Limelight Hotel Work Zone Neighbors

Subject: 6:00 AM Start Thursday October 22, 2015

Dear Limelight Hotel Neighbors:

We are writing to inform you that construction progress at the Limelight Hotel has reached an important milestone requiring an early construction start to facilitate the first of several upcoming critical post-tension concrete deck pours.

We will begin work on Thursday October 22nd at 6:00 AM to facilitate this 1st concrete deck pour allowing us to be complete prior to 7:00 PM that evening. Our gates will open at 6:00 AM to allow the concrete pump truck to set-up prior to beginning concrete placement at 6:30 AM. You will likely hear back-up beepers and material movement beginning approx. 6:00 AM that morning. The concrete placing/pour will last approx. 8 hours and the workforce will be finished hand tooling the deck before 7:00 PM.

We greatly appreciate your continued cooperation with our construction and this necessary early morning start. We will revert back to regular working hours for all other working days aside from the occasional early morning start.

Sincerely,

Limelight Hotel Field Supervision
McAlvain Construction, Inc.
