CS Fundamentals
## Free Professional Development Workshop

Why teach computer science in elementary school?

Code.org has developed elementary school curriculum that allows even the youngest students to explore the limitless world of computing. Courses blend online, self-guided and self-paced tutorials with "unplugged" classroom activities that require no computer. Each course consists of 20 lessons.

When: Wednesday, March 16th, 2016 from 8:00 am - 4:00 pm

Where: Mid-Pacific Institute (Wood Hall), 2445 Kaala Street, Honolulu, HI 96822

Registration: https://goo.gl/7RiSCS

Contact: Shane Asselstine, asselstine@pd.code.org

High-quality, professional development workshops, free of charge

Code.org is hosting no-cost, one-day workshops for K-5 educators interested in teaching computer science. Workshops will cover courses 1-3 and offer supplies needed to teach the courses.

What's in a workshop?

In-person instruction from an experienced computer science facilitator, including an intro to computer science, pedagogy, overview of the online curriculum, teacher dashboard, and strategies for teaching "unplugged" classroom activities.

What you'll receive (at no cost)

- Printed curriculum guide
- Certificate of completion
- Classroom supplies for the unplugged lessons
- Fun Code.org swag
