

Repeatedly
***Voted Best of Gwinnett and a
Pinnacle Small Business Award Winner***

- 1) I am the only Haberdasher in the state with a Bachelors degree in Fashion Merchandising and 15 plus years in the areas of retail, buying and manufacturing.
- 2) We are not the oldest or the largest, but we are the most educated custom clothing expert in the area.
- 3) We are not perfect, and we will make mistakes but enjoy being held accountable. We will fix any error that is made. The key is that we just need to know about it.
- 4) We believe when investing in custom suits and jackets you should receive just that. Additionally, our clients generally pay 20%-30% less than their previous custom provider and receive a better constructed garment.

The Difference - While made to measure/semi-custom garments have become the norm through implementing mass production techniques, our craftsmen painstakingly cut, trim and stitch our garments by hand. **Each and every McMahan's coat, trouser and vest begin with a hand-drawn pattern created specifically for you.** Correctly aligned with the paper pattern your selected fabric is hand cut and prepared for our Master Tailors. They then invest hours to complete the very best and very rare; a Hand-Sewn garment. Click our link in the memo "*The Difference in Hand-Made Clothing*" to see the best value for your money, your time and throughout the clothing industry.

Call me directly at 770.309.6597 or reply for a brief introductory meeting. In just 17 minutes and after a few questions, I'll determine if I can provide the same savings for you.

- Nothing feels as comfortable – Nothing lasts as long as a Hand-Sewn Suit.
