

Coleman Oglesbee

My NAMIC membership has been a critical part of my overall career growth and leadership development. Since joining the organization in 2008, I have completed the Executive Leadership Development Program at UCLA and participated in the L. Patrick Mellon Mentorship program as a mentor and a mentee. Both programs provided valuable insights that helped me succeed in past roles and prepare for future opportunities. My participation on the board for the Atlanta chapter and involvement with various events were also essential to my development.

Vice President, Customer Experience
