

Minot Travel Center – Minot, ND

New Construction

Project Summary:

FBS provided this complete furnish and install building package for Westmor Industries. This project location was in Minot, ND and FBS started the assembly of this package in the Fall of 2014. The exterior finish had Brickwal in Coronado “Special Used Country” brick, Boral Stone in European Cattlestone – Chardonnay and Dryvit in Pearl Ash, Irish Coffee and Amarillo White. Fullerton supplied the 22 column covers for the pump station as well.

Meet or Exceeding Owners Goals, Values and/or Expectations:

FBS worked with Westmoor on this design /build project in Minot, ND. Westmor needed to get the c-store up and in operation quickly. They had a lot of trouble finding skilled carpenters due to the amount of construction in the area and FBS resolved that problem for them. FBS delivered on every promise made and performed well in every way.

Client Profile:

Westmor Industries is a Designer and Builder of petroleum and liquid handling parts and equipment. Westmoor also does construction management, point of sale systems and support for C-stores. They are a Minnesota based company and have a wide range of services, parts and equipment. Fullerton was happy to partner with Westmoor on this project.
