

**Dane Street** is looking for board-certified Psychiatrists with an active Louisiana license for their Utilization Review Division. These reviews take approximately 15 minutes each and pay \$45.00 per case. The cases address the medical necessity of a requested form of treatment by a treating provider. The reviewer must certify or non-certify the request as being medically necessary and cite rationale as to their decision. There is 1 peer-to-peer attempt that has to be made on these cases. All files are accessed through our online portal which houses the prepped and organized medical records, a clinical summary of the records, and the question being posed. The reviewer answers the question within the portal and submits back to Dane Street. All prep work including list of records and history are completed by Dane Street. The reviewer is left only to answer the question itself and make the attempted outreach to the TP. For more information, please contact Denise Capua at Dane Street; (603) 770-8101 or via email, [DCapua@danestreet.com](mailto:DCapua@danestreet.com).
