

The University Pediatricians Autism Center is in need of students who are interested in learning behavior intervention techniques with children (birth to 18) who have autism. We employ about 100 behavior technicians at our three locations (Novi, Detroit, and Macomb). This is a great opportunity for students. Positions are part-time and flexible allowing for changes each semester to accommodate school schedules. Employees are trained to implement a variety of behavior change strategies, observational assessment techniques and data collection. This can be an ideal work experience for those going into various areas of social work. Students can get a quality experience related to their field of study. A behavior technician is an entry-level position in Applied Behavior Analysis and can lead to many additional career advancement positions that students can obtain at the undergraduate and graduate levels with minimal coursework in ABA. Below is a description of the position we are looking for.

Behavior Technician Part time positions (20 hours/week) available in Novi, Clinton Township and Detroit. Must be 18 years of age and have a high school diploma. Training will be provided.

Job responsibilities:

- Working one-on-one with a child with autism.
- Utilization of Applied Behavior Therapy strategies as instructed by a lead behavior technician and Board Certified Behavior Analysts
- The daily activities with the child include instructing, playing, laughing with, feeding, toileting, cleaning, lifting the child, squatting, shifting positions and more.
- Working in a team environment
- Participating in meetings for the child, team and staff meetings
- Taking, maintaining and filing data
- Cleaning and maintaining the individual rooms and classroom
- Any other duties as assigned

Typical shifts range from 4-6 hours; multiple center and in-home shifts are available Monday-Friday from 8:00am-8:00 pm. Weekend in-home shifts also available.
