

A UNIQUE OPPORTUNITY FOR POWELL RIVER YOUTH & EDUCATIONAL GROUPS

WHAT IS PRISMA?

From June 18-28, advanced music students and young professionals come to the Pacific Region International Summer Music Academy to prepare for a career in music performance.

Immersed in an orchestral training program, PRISMA students work with internationally renowned artists from the world's finest symphony orchestras.

The public is invited to masterclasses to witness the struggle to achieve musical excellence, the perseverance of students to reach their goals, the humour that comes with teaching, and touching and vulnerable moments of the learning process. During the strings masterclass, young audience members will have a special opportunity to engage in an interactive session with guest artists after the class.
