CEU WORKSHOP DETAIL

#1. WADING THROUGH THE WORLD OF WATER CONSERVATION - GAINING GROUND OVER YOUR COMPETITORS (.01 CEU, NKBA)

Taking a bold approach to water conservation in your kitchen and bath designs may prove to be just the avenue to higher profits you've been seeking. Establish your practice as the go-to firm for innovation and conservation. Understanding water usage and water-wise products, and applying this knowledge to your role as educator and advisor is an important part of doing your job skillfully. It's also a significant way to market yourself in the kitchen and bath industry, at a time when water shortage and cost-savings are of significant interest to consumers. Learn how to wade through the wide array of products and information available in a smart and practical way. This presentation will show you how to turn knowledge into selling opportunities.

SPEAKER: John A. Petrie, CMKBD 2015 NKBA Immediate Past President

John A. Petrie, CMKBD, has been working in the kitchen and bath industry since 1987, designing custom kitchens, bathrooms, home offices, wine cellars and home theaters. His early education was in architectural design, but his defining specialty and advanced training have been in kitchens and baths. He is the owner of Mother Hubbard's Custom Cabinetry in Mechanicsburg, PA. John and his father, Les Petrie, CMKBD, have both been leaders in the NKBA, with John serving as President in 2014, and Les in 2003. This distinction marked the first-ever, father-and-son presidencies for the NKBA.

#2. COLOR & PAINT IN ENVIRONMENTS FOR THE AGING (.01 CEU, NKBA & ASID)

Provides an overview of the changes in color perception among the elderly as a result of aging or disease, with discussions of appropriate color use and application of low- or no-VOC, durable, high-quality paint to facilitate quality of life in all environments for aging.

SPEAKER: Randy Tessman, Architect/ Designer Services for Benjamin Moore

#3. THE SMART HOME (HOME AUTOMATION) " A SMARTER WAY TO LIVE"

See what a fully realized "Smart Home" looks like for your high end client. Automation possibilities with lighting, heating, security, audio/video, window treatments, etc.

SPEAKER: Joe Allen, Beyond HI-FI

#4. ADVANCES IN KITCHEN APPLIANCES (.01 CEU, NKBA & ASID)

"Advances In Kitchen Appliances" encourages us to consider how kitchen appliances contribute to new consumer lifestyle trends. This ASID and NKBA accredited course takes a deeper look into the three most popular kitchen trends as recognized by The International Home and Housewares Show (The Green Kitchen, The Wellness Kitchen, and Cooking For Fun) by walking through the newest innovations offered in the appliance industry today.

SPEAKER: Kevin Kok, Builder Sales Manager, NW Region for Bosch, Thermador, Gaggenau
