

# Who is measuring consistency of your hourly rounds?

## MTR® Electronic Patient Room Boards

Remotely update and manage patient room board content for each individual patient room.

Inform families of patients' progress, whereabouts and plan of care.

Add automated hourly rounding functionality to authenticate care team visits.

Improve hourly rounding consistency with outstanding reporting tools.

The digital display shows the following information:

- Your Nurse:** Diana x42578 (with photo)
- Your PCT:** Heather x42953 (with photo)
- Your last staff visit was:**
  - 4:15am
  - 3:27am
  - 2:19am
  - 1:24am
  - 12:36am
  - 11:04pm
  - 10:02pm
  - 8:48pm
  - 7:15pm
  - 6:20pm
  - 5:25pm
  - 4:07pm
- Concerns:** Incentive Spirometry every hour
- Activities:** Therapy 11:00am
- Diet:** Liquids only
- Comments:** Advance diet; Ambulate 50 feet
- Goals:** Walk the halls 3 times today, Morning, Noon, and Night

A red banner at the bottom of the board reads: **Monday June 29, 2015 4:30am**

Below the banner, it says: **Good Morning! Bob Sanders**  
*Community Medical Center*  
Room # 235 • Phone #: (847) 555-1111, ext. 2235

On the right side, there is a photo of a woman and the text: **Nurse Manager: Maria x41358**

## Managing Team Response®

"We have seen an increase in our Press-Ganey scores of at least 7 points in just a few months after implementing the MTR® Hourly Rounding"

*Director of Nursing, Illinois*

Why don't *all* healthcare facilities cheer incredible results from hourly rounding? Chief differences between those hospitals that are victorious and those struggling to achieve effective results are the lack of rounding verification and visibility for staff and managers.

Hourly rounding has persuasive effects and Value-Based Purchasing (VBP) initiatives are rewarding hospitals for delivering high-quality care, thus seeing better outcomes and higher reimbursements based on your performance.

Managing Team Response® equals proven results in increasing patient satisfaction.
