

Reducing Healthcare-Acquired Conditions in Nursing Homes

Webinar: Promoting Mobility

Thursday, July 9, 2015 • 12 Noon Pacific, 1 p.m. Mountain

Webinar Objectives

Participants will be able to:

- Describe the impact of immobility on ADLs, falls, pressure ulcers, diabetes, the upper respiratory tract, sleep and overall health of the elderly.
- Identify exercise programs and restorative nursing interventions that help your residents maintain or improve their mobility, strength, and balance.
- Demonstrate how to document a mobility enhancement and restorative nursing program to meet Medicare/MDS requirements.

Target Audience

This presentation is directed to the LTC setting. Information can be utilized across health care settings.

Speaker: Jeri Ann Lundgren, RN, BSN, PHN, CWS, CWCN, CRRN

Jeri has been working in long-term care since 1990, specializing in wound care nationally since 1994. She is board certified as a CWS (Certified Wound Specialist) by the American Board of Wound Management and a CWCN (Certified Wound Care Nurse) by the Wound, Ostomy and Continence Society. Her extensive background in wound management in long-term care nationally includes survey management, litigation support, wound care consultation, program development, and clinical expert for several state quality improvement organizations and departments of health. Her background also includes 4 years as a director of nurses in a long-term care facility. Currently, Ms. Lundgren is the president of Senior Providers Resource.

To Participate

(Please join the event 15 minutes prior to the start time.)
