

# JACKET STRIPPING TOOL

## QUICK AND EASY!

Prepping the end of FlashShield™ CSST has never been easier.

With the Jacket Stripping Tool you can quickly, and correctly, remove the protective jacket layers before connecting an XR3™ fitting. Proper removal of the outer jacket layer on FlashShield™ CSST enhances the electrical continuity of the system when used with the XR3™ fitting. The Jacket Stripping Tool replaces your utility knife by taking the guesswork out of counting corrugations and cutting down to the correct depth.

PART NO.	DESCRIPTION	PKG. QTY.	LBS./EA.	LIST PRICE/PIECE
