

Future DJs: After-School Program

Summary:

Fundamentals has set out to provide the most exciting and cutting edge youth program out there. This idea stems from our on-site classes in which a younger demographic is the majority. Future DJs is a big hit with the new schools we've worked with and has resonated very well within the community. Kids jump at the idea of learning how to become a DJ! [Pictures on Page 2]

Students Will Learn:

- ☐ Introduction to DJ equipment/hardware/software
- ☐ Introduction to "Beat Mixing"
- ☐ Basic music theory
- ☐ Conceptual tips on playing music for others
- ☐ Creating fun playlists

Benefits to Students:

- ☐ Improved cognitive function, motor skills, creativity and confidence
- ☐ Fun and dynamic group exercises, students leave happy
- ☐ Skills learned are right in line with STEM standards (visual, auditory and kinesthetic learning)
- ☐ Fun, new and safe hobby or career path to explore

Equipment Provided:

- ☐ Small DJ Speaker Monitors
- ☐ Custom DJ laptop with DJing software and all "G-rated" music
- ☐ Headphones
- ☐ Instructor mixing station
- ☐ Everything is included, your child does not need anything for the class

Rates and Details :
