Head of Neurosurgery and the Lyle French Chair in Neurosurgery

The University of Minnesota Medical School

The University of Minnesota Medical School invites nominations and applications for Head of Neurosurgery. For more than 120 years, the University of Minnesota has served as the leading educator of the state’s physicians. The Department of Neurosurgery has made substantial contributions to the field of neurosurgery including the introduction of dexamethasone into neurosurgical practice, a better understanding of brain death, early procedures for the transthoracic correction of spinal deformity, introduction of one of the first intraoperative magnetic resonance imaging facilities in the United States, as well as helping to train many academic neurosurgeons and department chairs.

Reporting to the Dean of the Medical School and Vice President for Health Sciences, the next Head will have the opportunity to join a campus community well positioned to become a leader in clinical neurosurgery and in the discovery of new and innovative treatments. The Head, who will hold the prestigious endowed Lyle French Chair in Neurosurgery, will be an innovative, strategic, and accomplished leader and administrator, and will join a collaborative group of faculty in order to grow the clinical care mission, selectively grow research, provide strong business and financial acumen to the management and oversight of the Department, promote collaboration across the medical campus and beyond, as well as sustain and enhance educational excellence. This individual will serve as an effective external advocate and representative for the Department.

The successful candidate must meet the requirements for appointment as a full professor at the University of Minnesota. S/he must have an M.D., be licensed to practice medicine in the State of Minnesota and be board certified in Neurosurgery or have equivalent qualifications in compliance with the medical staff credentialing processes. This individual will bring at least 10 years of experience in a medical school setting, in accordance with LCME oversight, and must have a published research portfolio.

Please direct inquiries, nominations, and applications to Isaacson, Miller, a national retained executive search firm. All replies will be held in strict confidence. Review of candidates will begin immediately and will continue until the position is filled. Correspondence and applications, which should include a curriculum vita and a letter of
interest, should be submitted electronically to search consultants Denise O’Grady Gaffney and Stephanie Fidel via this website: www.imsearch.com/5441

The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression.
