

# Director of Perioperative Care

## Dell Medical School at the University of Texas at Austin

We are redefining the role of academia in healthcare delivery innovation and need a leader who is ready to make Austin the model for the next century.

The Dell Medical School at the University of Texas at Austin is seeking an accomplished clinician-scientist to join the Department of Surgery and Perioperative Care as the Director of Perioperative Care. As part of the University of Texas at Austin, one of the nation's leading research universities, the Dell Medical School is pursuing innovative strategies to redesign healthcare delivery and achieve excellence in healthcare research and education. It will be the first medical school established in nearly five decades by a member of the Association of American Universities, and is the product of an extraordinary commitment of resources, both public and private, intended to ensure its growth and success. In addition, it has formed new partnerships with community and regional healthcare organizations to create new models for health promotion and healthcare delivery for the community's underserved population. The Director of Perioperative Care will join a world-class, visionary leadership team that is committed to redesigning academic medicine and healthcare delivery from its foundations, launching new models of education and training, and pursuing excellence in healthcare research and innovation.

The Department of Surgery and Perioperative Care encompasses Anesthesia, Cardiovascular Surgery, Emergency Medicine, ENT, General Surgery, Neurosurgery, Ophthalmology, Orthopedics, Plastic Surgery, Trauma and Acute Care Surgery, and Urology. The Director of Perioperative Care will lead the design, development and research of perioperative care processes (including but not limited to the perioperative surgical home) to support evidence-based, multidisciplinary care for patients with a variety of surgical conditions and diseases.

This is an exciting and unique opportunity to be a contributing member towards building a world-class department from the ground up. Applicants for this position should possess a medical degree from an accredited medical school, be board certified, eligible for appointment as tenure-track faculty, eligible for a Texas medical license, and have experience with value-based care delivery and integrated practice models.
