

Chair, Department of Microbiology and Immunology

SUNY Upstate Medical University College of Medicine located in Syracuse, NY has initiated a nationwide search for an innovative academic leader to serve as the next **Chair, Department of Microbiology and Immunology**.

The next Chair of Microbiology and Immunology will be responsible for guiding the growth and development of the Department's highly respected education and research enterprises, taking full advantage of opportunities for collaboration across departments and research interests. Potential areas of research growth include, but are not limited to, cancer and tumor immunity, global health and vaccine development, and virology. In addition to existing facilities, the resources available to the new Chair include funds to support the recruitment of several new faculty. The Department has responsibilities in medical and graduate student teaching, and the Chair would be influential in ongoing curricular renewal in the College of Medicine. The Department of Microbiology and Immunology is based in Upstate's College of Medicine, and the Chair plays a key role as a partner with leaders of Upstate's College of Graduate Studies, College of Health Professions and College of Nursing. The successful candidate will have a strong record of leadership, research accomplishment, extramural funding, education of graduate and medical students, and successful collaborations.
