

Chief - Division of Pediatric Hematology-Oncology - MedStar Georgetown University Hospital

MedStar Georgetown University Hospital seeks to recruit an academic pediatric hematologist or pediatric medical oncologist to serve as Chief for the Division of Pediatric Hematology-Oncology and Director of Regional Pediatric Hematology-Oncology Services for MedStar Health. The Chief will have the opportunity to build upon the pediatric hematology-oncology programs and services of the Division. Providing strategic direction for the Division, the Chief will have responsibility for recruiting additional faculty members, establishing multidisciplinary clinical programs and enhancing clinical research activities. The new Chief will be supported with strong resources to help build this very important division.

The Division of Pediatric Hematology-Oncology is comprised of a multidisciplinary, collaborative team of pediatric hematologists/oncologists, oncology nurse practitioners, APHON certified oncology nurses, clinical research associates, social workers, case managers, psychiatrists, art therapists, nutritionists, patient advocates and chaplains. The Division of Pediatric Hematology-Oncology is part of the Lombardi Comprehensive Cancer Center—the area's only NCI-designated comprehensive cancer center - and is a member of the Children's Oncology Group, offering eligible patients participation in state-of-the-art clinical trials.

MedStar Health, the largest healthcare provider in Maryland and the Washington, D.C region, includes 10 hospitals, the MedStar Health Research Institute, MedStar Medical Group, urgent care locations and home health services. MedStar Georgetown University Hospital is a not-for-profit, acute-care teaching and research hospital with 600 beds located in the heart of Washington, D.C.

Successful candidates should hold the academic rank of Associate Professor or above and will have demonstrated clinical expertise in pediatric medical oncology or pediatric hematology. Strong interpersonal skills and the ability to work collaboratively with other professionals to advance clinical programs and clinical research are required. Qualified candidates must have completed an approved pediatric hematology-oncology fellowship program and be Board Certified in Pediatric Hematology-Oncology by the American Board of Pediatrics.
