

**Chief of Cardiology/Duke University Medical Center**

The Department of Medicine at the Duke University Health System is seeking candidates for Chief of the Division of Cardiology. This is an excellent opportunity to lead a large and outstanding division of researchers, educators and clinicians, and to interact with robust clinical programs at Duke in all facets of cardiovascular disease, including Duke Clinical Research Institute, Duke Cardiovascular Research Center, Duke Heart Center and a major cardiac transplant program. Candidates should have demonstrated a high level of administrative experience and scholarly work, and be able to outline a visionary future for the clinical, research and training missions of the division. Applicants for this position should be eligible for appointment at the Professor level (tenure track) at Duke University Medical Center. Additional information about the Department of Medicine and Division of Cardiology is posted at <http://medicine.duke.edu>. Qualified individuals should send a letter of interest describing their clinical, research and administrative interests and expertise, along with current curriculum vitae, to donna.salvo@duke.edu by December 1, 2015.

Duke University is an Affirmative Action and Equal Opportunity Employer. Women and minorities are encouraged to apply.

As a world-class academic and health care system, Duke Medicine strives to transform medicine and health locally and globally through innovative scientific research, rapid translation of breakthrough discoveries, educating future clinical and scientific leaders, advocating and practicing evidence-based medicine to improve community health, and leading efforts to eliminate health inequalities.
