

Administrative Director - Barrow Neurological Institute at Phoenix Children's Hospital

Phoenix Children's Hospital, recognized as one of the leading children's hospitals in the country and providing care to the 4th largest pediatric market in the United States, seeks an accomplished service line executive to serve as the Administrative Director of the Barrow Neurological Institute at Phoenix Children's Hospital.

Formed in 2011, the Barrow Neurological Institute at Phoenix Children's Hospital combines internationally recognized research and patient care expertise with a nationally ranked pediatric neuroscience program. Phoenix Children's Hospital offers the largest and most comprehensive inpatient and outpatient neurological programs for infants, children and teens in the Southwest United States. In 2015, the neurosurgery and neurology programs at Phoenix Children's again gained national recognition, named 14th in the country by the U.S. News and World Report Best Children's Hospitals ranking. In 2015, the comprehensive Pediatric Epilepsy Program at Phoenix Children's Hospital received the highest level of certification available from the National Association of Epilepsy Centers.

The Administrative Director is responsible for maximizing the operational efficiency, profitability and growth of the neurosciences programs at Phoenix Children's Hospital to elevate its recognition as a national leader in pediatric neurosciences. The Administrative Director ensures the full integration of services to achieve the highest levels of clinical quality outcomes, patient satisfaction and value across the neuroscience service line. The Administrative Director is accountable for the provision of quality patient care through the implementation of efficient patient process management, service integration, staff and resource management and new program development. In partnership with the Chiefs and Divisions of Neurology, Neurosurgery, PM&R, Psychiatry, Psychology and Neuropsychology at Phoenix Children's Hospital, the Administrative Director evaluates and leads business development initiatives to expand services, increase volumes and enhance patient access.

The successful candidate will demonstrate significant expertise in healthcare operations and success in leading and growing a prestigious neurosciences program. Excellent leadership qualities, communication skills, and the ability to establish strong alignment with physicians and staff is required. Experience within an academic pediatric program and an advanced degree in business or healthcare management are strongly preferred.
