

**Chief Medical Officer**  
**UT Medicine of San Antonio**  
**The University of Texas School of Medicine at San Antonio**

UT Medicine of San Antonio, the clinical practice of the University of Texas School of Medicine in San Antonio, seeks a talented and visionary leader as Chief Medical Officer. Reporting to the Executive Vice Dean for Clinical Affairs/Executive Director of UT Medicine, the Chief Medical Officer will play an instrumental role in developing an integrated and patient-centered clinical practice that will serve as a model for the coordinated delivery of high quality ambulatory services.

UT Medicine is a multispecialty practice with over 700 physicians representing over 100 medical and surgical specialties. Headquartered in the Medical Arts and Research Center (MARC) located very near the University of Texas Health Science Center in San Antonio, the practice also has several satellite locations. UT Medicine is expanding its clinical activity to successfully address the challenges of future healthcare delivery and to meet the needs of the expanding population of San Antonio, the largest city in South Texas, the seventh largest city in the United States.

The Chief Medical Officer will provide leadership and expertise for ambulatory clinical operations, integration and alignment, clinical effectiveness, medical staff supervision, and physician leadership development. He or she will champion the quality efforts driving clinical integration and consistency of care throughout UT Medicine. The Chief Medical Officer will partner with UT Medicine and School of Medicine leadership to strategically develop programs, processes and systems that ensure the viability and future growth of UT Medicine.

The successful candidate will be an experienced physician leader with clinical credibility and a distinct vision for an integrated multispecialty medical and surgical group. He or she will have demonstrated success in clinical practice operations along with familiarity with clinical information technology and electronic health records. The successful candidate will be visible and engaging, with an effective and open communication style. Candidates must hold an M.D. or equivalent medical degree, be board certified in a medical specialty, and be eligible for medical licensure in Texas. The candidate must be eligible for appointment at the rank of Associate Professor or Professor. Proven and substantial leadership experience is required.

Nominations, expressions of interest, and applications may be submitted confidentially to the consultant assisting UTHSCSA with this search at [utmedcmo@wittkieber.com](mailto:utmedcmo@wittkieber.com). Applications should include a Cover Letter and Curriculum Vitae.
