

**City of Hope National Medical Center in Duarte, California is seeking an exceptional academic leader to serve as the Chair of the Department of Supportive Care Medicine.**

Founded in 1913, City of Hope is a non-profit NCI Designated Comprehensive Cancer Center focused on cutting edge treatment of patients with cancer and other catastrophic diseases. Home to one of five Beckman Research Institutes, the City of Hope campus is also a center of robust clinical, translational, and basic science research programs.

The Department of Supportive Care Medicine is a unique, multidisciplinary department which includes specialists in palliative medicine, pain management, psychiatry, psychology, social work, spiritual care, as well as a positive image center. The faculty and staff provide a robust, integrated consultative service to the patients at City of Hope and to their families. The Department prides itself on its commitment to excellence in comprehensive and integrated patient care.

As an international referral center for complex patients, the clinical research opportunities at City of Hope are vast. We are seeking a chair who has strong interest in leveraging those research opportunities to create a robust clinical research program in the context of the aforementioned disciplines and in strong collaboration with the other clinical departments on the City of Hope campus. The incoming chair will enjoy state of the art clinical and research facilities along with ample resources to augment the strengths of our multi-disciplinary Supportive Care department. The chair will have the opportunity to help develop the Department further as a national leader in the delivery of supportive care services and build on existing, nationally known research programs in the Department.

We are seeking applicants who are board certified in a relevant specialty and are eligible for the Associate Professor or Professor rank and who have a demonstrated track record of leadership, program development, strong clinical reputation, and scholarly excellence. Candidates with a strong interest in clinical research will be given high consideration.

For a full position description and to discuss the position by phone, send your curriculum vitae to Cody Futch, Vice President of Academic Recruiting, at Merritt Hawkins to [cody.futch@merrithawkins.com](mailto:cody.futch@merrithawkins.com) and reference job number 10476. We will be accepting applications through January and early February and will begin scheduling interviews in February.

City of Hope is an equal opportunity employer who values diversity and candidates of all backgrounds are encouraged to apply.
