

## **Chief of Infectious Diseases | Michigan State University | East Lansing, Michigan**

Some highlights of the position are:

- Opportunity to grow an existing clinical program and start an ID research program
- Ability to hire faculty
- Established fellowship program in place
- State-of-the-art lab space available
- Excellent Basic Science Department on campus
- Lab package available including recruiting resources
- Excellent salary and benefit package
- Current Division Chief retiring from this role, but will stay on faculty to assist with transition
- Generous protected research and administrative time
- Big 10 University includes college of nursing, law and much more
- Opportunity to work with the Center for Evolutionary Research, Quantitative Biology Program and help develop institutional initiative to build anti-microbial resistance program

### **Qualifications:**

Candidates must hold an M.D., M.D./Ph.D., D.O. or equivalent degree from an accredited medical school, ABIM board certification and recertification if applicable; academic accomplishments that would merit appointment at the associate professor or professorial level in the tenure system; relevant administrative experience; and evidence of effective interpersonal skills. The successful candidate will have a record of federal funding, promote research collaborations across the University and the community, attract and develop qualified faculty, oversee clinical activities of the division, and enhance the education of medical students, Internal Medicine Residents and Infectious Disease Fellows.

Interested individuals should send curriculum vitae to Kim Zeigler, Senior Director, Merritt Hawkins, [medcareers@merrithawkins.com](mailto:medcareers@merrithawkins.com).
