Lunch & Learn session

\$10 AIA members

\$15 non-members

Presented By:

Michelle Allen, LEED AP
Specification Manager
LG Hausys

Join us for this luncheon presentation
on quartz countertops and fabrication.

This session qualifies for (1) HSW LU.

Course Learning Objectives are to:

- (1) We will review the history of quartz products and the properties that make them a desirable choice for surfaces, (2) We will examine the composition of quartz surfacing material and how it is made as well as industry testing and environmental factors, (3) The course will discuss criteria to consider when designing the quartz surface and how to work with a fabricator, (4) We will identify general fabrication, installation and maintenance considerations that will help you choose a durable, impervious and attractive quartz surface.
