

Weekly Production Report

APS Solar Energy System maximizes your solar energy production and keeps you informed about your system.

Date	Energy Produced
2014-10-11	0 kWh
2014-10-10	0 kWh
2014-10-09	0 kWh
2014-10-08	0 kWh
2014-10-07	0 kWh
2014-10-06	0 kWh
2014-10-05	0 kWh

Note: Typically, "0" is an indicator of a communication problem in the system. In most cases, your system is producing power, but is failing to communicate their performance to EMA.

- (1) Check your system to make sure that its Internet connection is functioning as expected.
- (2) Check your system to make sure that it is working normally.
- (3) Contact your installer if your system is working abnormally.
