

Ways to reduce our carbon footprint and contributions to landfill in 2014. Here are a couple of ideas.

Styrofoam Recycling: Block-style Styrofoam may be dropped off in the lobby of the Winnetka Public Works building at 1390 Willow Rd. from 7am - 5pm Mondays - Fridays through Friday, January 10. Neighboring communities are welcome to drop off. Last year the Styrofoam was recycled at Abt, but this year it is being picked up by Dart. The program may continue past January 10. More details to follow. Please spread the word about the program and that ONLY block-style hard Styrofoam is accepted at this time.

Holiday Light Recycling: Make the switch to LED holiday lights and recycle your old incandescent holiday lights in the lobby of the Winnetka Public Works building at the same time. Any SWANCC member community resident may use the drop off. String lighting and extension cords are accepted, but garlands, live greens, wreaths, and other non-recyclable items are not.

Go Green Northfield Facilitator Wanted: We are looking for a Northfield resident to facilitate a new Go Green Northfield group, independent from Go Green Winnetka. Critical differences in government, waste management, and other areas mean Winnetka and Northfield will be served best by separate Go Green groups. Go Green Northfield would set its own form and agenda and would enjoy the full support and cooperation of numerous other North Shore Go Green groups, including Go Green Wilmette, Go Green Kenilworth, Go Green Winnetka, Go Green Glencoe, Go Green Northbrook, and others. If you or anyone you know is interested, please reply to this email.

About Go Green Winnetka-Northfield: Go Green Winnetka-Northfield is devoted to raising environmental awareness and inspiring action. Let us know what's on your mind and help us make Winnetka and Northfield greener places to live and work.

For more information, email GoGreenWinnetkaNorthfield@gmail.com
