The Mask You Live In is an exploration of young American
masculinity and the social stereotypes that surround it.

Boys in America are more six times more likely than girls to be diagnosed with behavior disorders, prescribed stimulant medications, drop out of school, binge drink, and commit violent crimes or suicide. The question for society is: "Are we failing our boys?" The film is 90 minutes long and is suitable for parents of boys in elementary school and above. The screening will be followed by a brief discussion led by James McGinn, LCSW of the Family Centers of Darien.
